

Street Smarts

Easy ways to keep your storefront and Boise's stormwater clean

Keeping Boise's stormwater and the Boise River clean is smart business for all of us. Here are a few suggestions that will help keep our downtown and stormwater clean.

- Sweep the sidewalk first. Throw debris away in a garbage receptacle.
- For small jobs, use a mop and bucket to remove stains, spills, or grime; or rinse sidewalks with detergent-free water into tree wells or into a clean, swept gutter.
- For large jobs, contact the Downtown Boise Association at 472-5252.

Need help with a large spill?

- Call 911 to report a toxic, hazardous, or unknown materials spill.
- Call the Stormwater Pollution Hotline at 395-8888 to report non-emergency spills.
